Notice of Proposed State Implementation Plan (SIP) Revision and Public Hearing for New Jersey's Multi-pollutant Infrastructure SIP, meeting the requirements of Section 110(a)(1) and (2) of the Clean Air Act (42 U.S.C. § 7410(a)(1) and (2))

Take notice that the New Jersey Department of Environmental Protection (Department) is proposing a revision to the “infrastructure” portion of the State Implementation Plan (SIP) to demonstrate New Jersey’s ability and authority to implement, maintain, and enforce the National Ambient Air Quality Standards (NAAQS) and visibility requirements.

This proposed SIP revision addresses the infrastructure requirements of the federal Clean Air Act (42 U.S.C. § 7410(a)(1) and (2) (Section 110(a)(1) and (2))) for the National Ambient Air Quality Standards (NAAQS) for lead, sulfur dioxide, nitrogen dioxide, fine and course particulate, carbon monoxide, and ozone. It also addresses the visibility and interstate transport infrastructure requirements for demonstrating that New Jersey has the authority and infrastructure to implement, maintain, and enforce an air quality management program that provides for attainment and maintenance of the NAAQS and visibility standards.

Copies of the Department’s proposed SIP revision are available on the Department’s web site at www.nj.gov/dep/baqp/siprevs.html and from the Department’s Bureau of Air Quality Planning at 401 E. State Street in Trenton, New Jersey. A copy of this notice is also available on the web site at www.nj.gov/dep/baqp/
