REG = HMDC/Pinelands Exemption

Permit Descriptions

CAFRA: A Coastal Area Facility Act permit is required to construct residential, commercial, public, transportation, utility and energy-related facilities in the coastal area as defined by the Act.

Federal Consistency Activity: Certain federal permits, not limited to the U.S. Army Corps of Engineers Dredge and Fill Permits, require certification by the DEP prior to the issuance of the permit by the federal agency.

Flood Hazard Area: A Flood Hazard permit or verification is required for disturbances within the floodway, floodplain or riparian zone in areas regulated under the Flood Hazard Area Control Act.

Freshwater Wetlands: A Permit (Letters of Exemption, Letters of Interpretation, Statewide General Permit, Open Water Fill, Individual, Transition Area Waiver, Water Quality Certificate) is needed prior to engaging in a regulated activity in or around freshwater wetlands and associated transition areas.

General Groundwater Petroleum Products Cleanup: This general permit authorizes the surface water discharge of treated groundwater previously contaminated with petroleum products.

NJPDES permits: A permit is required for the discharge of pollutants to surface and groundwater, a discharge from an indirect user or the land application of municipal and/or industrial residuals. (A more comprehensive definition of activities, which require a permit, may be found at N.J.A.C. 7:14A-2.4)

Solid Waste Facility: A permit is required to conduct or operate any solid waste facility as defined under the Solid Waste Management Act, N.J.S.A. 13:1E-1 et seq., and N.J.A.C. 7:26-1 et seq.

Highlands Resource: A Highland Preservation Area Approval is required for regulated activities within the Highland Preservation Area as defined in the Highlands Water Protection & Planning Act Preservation Area Rules. Highlands Applicability Determinations verifies certain exemptions allowed by the regulations.

Tidal Wetlands: A Coastal Wetlands Permit is needed to excavate, dredge, fill or erect structures on coastal wetlands.

Treatment Works Approval: A TWA permit is required for the construction, modification or operation of a treatment works, including sanitary/industrial sewage pretreatment or treatment systems, sewage conveyance systems, sewer extensions and subsurface sewage disposal systems.
Waterfront Development: A permit is required for any project involving the development of waterfront near or upon any tidal or navigable waterway in the State.

General Information

The DEP Bulletin is an information service provided by the New Jersey Department of Environmental Protection. In compliance with the Rules and Regulations Governing 90 Day Construction Permits (NJAC 7:1C-1.1 et seq.) this semi-monthly publication contains a list of construction permit applications recently filed or acted upon by the DEP. Using the Application Milestone Codes located on the inside front cover, interested persons can determine the status of Coastal Area Facility Review Act (CAFRA) permits, Federal Consistency Activity permits, Freshwater Wetlands Individual and Statewide General permits, General Groundwater Petroleum Products Cleanup permits, Open Water Fill permits, Solid Waste Facility permits (SWF), Flood Hazard Area (FHA) permits, Tidal Wetlands permits, Waterfront Development permits and Treatment Works Approvals (TWA). In addition, this publication lists status of Highlands application and Highlands Applicability Determinations.

In addition, a calendar of Events of Interest and a Schedule of Public Hearings is provided. The public hearings listed do not, however, constitute an official notice. Environmental Impact Statements acted upon during the period are also shown. Additional information concerning the permit applications can be obtained by calling the project manager at the appropriate office listed on the inside back cover.

Public Hearings are held for the purpose of obtaining input and reaction to a proposed rule, regulation, or new program. Some hearings may be mandated by law. Generally, their scope of impact is statewide or of broad general interest and open to the public.

Contested Case Hearings are held between the State and a particular party involving an application, enforcement violation or an appeal. Interest in these hearings is generally limited to those directly involved.

DEP Events of Public Interest include public hearings, council meetings, workshops, public information meetings, and exams.

Appeals on Applications

Any individual who would like to appeal a decision on an application should direct their remarks to:

Office of Legal Affairs
Attn: Adjudicatory Hearing Requests
Department of Environmental Protection
PO Box 402
Trenton, NJ 08625-0402
BOARD OF EXAMINERS FOR WATER AND WASTEWATER OPERATOR LICENSING
NOTICE OF PUBLIC MEETING

Pursuant to P.L. 1975, c. 231 (Open Public Meeting Act) notice is hereby given that the Board of Examiners for Water and Wastewater Operator Licensing will hold a public meeting on Wednesday, January 20, 2021 at 10:00 a.m. via Skype. The agenda of the meeting is attached. Formal action on Board issues may be taken. Interested members of the public may attend (via Skype).

December 16, 2020
Date

[Signature]
Patricia Conti, Chief Licensing Programs

Water and Wastewater Board of Examiners
January 20, 2021

AGENDA

I. Call to Order

II. Roll Call

III. Notice of Public Meeting

IV. Review and Approval of past Meeting Minutes

V. Old Business
   A. Status of Make-up exams
   B. Status of in-house applications
   C. Status of process for going forward
   D. Status and consideration of flexibility for training credits

VI. New Business
   A. Review of 50 screened apps
   B. Need for board approval of exam results

VII. Advisory Committee Comments
   A. Online training standards concerns

VIII. Public Comment
