

## Contaminated Site Remediation & Redevelopment

**From** NJ Department of Environmental Protection  
**To** NJDEP@public.govdelivery.com  
**Date & Time** 1/23/2026 11:20 AM EST  
**Subject** Preparedness for Extreme Weather Events

As extreme weather events occur, those responsible for contaminated sites should evaluate any remediation cases for which they are responsible to ensure that they are as ready as practicable.

The New Jersey Department of Environmental Protection (NJDEP) previously published the "[Important Information About Vapor Mitigation Systems And Power Outages](#)" fact sheet. NJDEP recommends that remediating parties distribute this fact sheet to property owners with subsurface depressurization systems prior to weather events that may cause power outages, as necessary. Whether you are the person responsible for conducting the remediation or the Licensed Site Remediation Professional (LSRP) retained, all efforts should be made to prevent new discharges at your site and to maintain active remediation systems.

Any discharges of hazardous substances are required to be reported to the DEP Hotline at 1-877-WARN-DEP (1-877-927-6337). Subsequent to the extreme weather event, all sites should be re-evaluated to determine if any immediate environmental concerns needing action arose and whether site conditions changed, requiring re-evaluation of impacts to receptors.

Please refer to the "[Planning for and Response to Catastrophic Events at Contaminated Sites](#)" technical guidance for additional information regarding responding to potential impacts from this extreme weather event and preparing for future events.

For topic-specific questions regarding site remediation, please refer to the [CSRR Contact List](#).

---

The New Jersey Department of Environmental Protection is dedicated to protecting New Jersey's environment and public health. The agency prioritizes addressing climate change, protecting New Jersey's water, revitalizing its communities and managing and promoting its natural and historic resources.
